opening the door to a greener tomorrow

New MATTE Thermofoil Options

With M and J expanding its line of Matte Thermofoils to 4 different colours, prepare to have this conversation over and over again:

**Is that paint? No.
Are you sure? Yes.
It sure feels like it.
Believe me, it isn't!**

Now Customers with Champagne Tastes on a Beer Budget can have their cake and eat it too. Its smooth, satiny, matte finish will amaze and confound your Customers. The earthy and neutral tones will compliment most floor, back-splash and counter-top materials being used in the rest of the kitchen.

You won't have to worry about finger-prints because your customers won't want to take their hands off of it. Contact sales for more details (sales@mjwoodcrafts.com).
